WELCOME

InLine Engineering Sdn. Bhd (formerly known as Inline Engineering Services since 2013). As a business formulated consultancy team, we refined our skilled craft through our hard work and experience in mechanical engineering work, electrical work, hydraulic engineering, wastewater treatment plant, civil structure construction engineering works, fire fighting system, hardware supplies, plant maintenance, and also fabrications.

The Company has moulded its services according to the customer's demands into a satisfactory level. Thus, InLine Engineering Sdn. Bhd. echoes the company's vision into becoming the preferred and premier surface to the clients domestically and internationally. In InLine Engineering Sdn. Bhd., we strive to provide excellent services to the customers, we build a good strong foundation in the corporation and to form Business Intelligence in this era.

Therefore, it will be the latest synthesis to the highest and best strategy to explore the business beyond the current place to provide top-notch services to our customers. We have accumulated years of experience in providing total facility support services to various industrial companies. Besides that the company also has other new ventures over the years.

COMPANY MISSION, VISION & CORE VALUES

Mission

The Total Maintenance:
To be the most preferred
vendor of choice and as
one-stop solution provider
supporting technical needs
in industries.

Vision

Provide an excellent
maintenance solutions for
all kinds of industrial needs
and requirements in the
path of the latest
technology trends.

Core Values

Satisfying our customers'
needs in all aspects by
providing high-quality
maintenance solutions,
services, and products with
cost effective and on-time
delivery.

OUR OBJECTIVES

Customer & Trust

Trust brings customers to our business with proven products and projects. We are happy to have earned all of our clients trust. Our job is to work smart towards customer satisfaction.

Members & Pride

People are an invaluable investment we have made. We take pride in our members and in everything we have done. We as a team have provided our best efforts and passion into what we do.

HSE Policy (Health, Safety and the Environment)

InLine Engineering Sdn. Bhd. is committed to ensuring the health and safety of all of our employees while they are at work. InLine Engineering Sdn. Bhd. has developed a robust Health & Safety Management System that is integrated with organisational activities. All employees and managers have the responsibility to work safely, to take all reasonable care for their health and safety. The employees also required to carefully consider their health and safety of other people who may be affected by their actions. InLine Engineering Sdn. Bhd. will take all reasonable and practical steps to improve work safety conditions and will strive to achieve the goal of ZERO HARM.

To reach the ultimate goal of Zero Harm, InLine Engineering Sdn. Bhd. is continuously building on our safe work practices by strictly adhering to the following plans:

- Compliance:** Through regular compliance evaluation against national standards, InLine Engineering Sdn. Bhd. will continue to evolve and commit to follow all relevant safety laws and regulations
- Hazard Reduction:** Work begins by identifying, then consulting to the client about the potential hazards in the workplace environment. Working closely with our clients, we conduct onsite safety risk assessments and develop educational programs for our employees to learn how to reduce the risk of harm.
- Safety Leadership:** Our performance targets have a high emphasis on safety, that is why each year we set ourselves stringent safety targets and measures for continuous improvement.
- Safety Partnership:** We are proud to have an internal and external employees and clients who value workplace safety as highly as we do. With their continued co-operation and support, InLine Engineering Sdn Bhd can deliver safer working environments always.

COMPANY: THE ORGANIZATIONAL STRUCTURE

OUR EXPERTISE AND DIVISIONS

CIVIL ENGINEERING

Expertise in Civil Engineering

InLine Engineering Sdn. Bhd. offers a full range of high value and start to finish pre-construction management services. We have the necessary capabilities, professional talent, universal reach, and capital to offer our client fully integrated projects deliver services that set a new standard in quality, value, timeliness, and cost-efficient services.

Our Civil Engineering Services:

- Civil & Structural works
- External Works
- Architectural work

Piling & Structural Works

Renovation Works

Concrete Construction Works

Demolition Works

Production Floor Setup Works

RC Plinth For Fire Tank

PLUMBING & PIPING

InLine Engineering Sdn. Bhd. Sanitary & Plumbing Services is the ultimate choice of yours. Whether your plumbing needs are simple or complicated, from leaking taps or burst geysers and beyond, we will attend to them efficiently. Contributing to transformation, service delivery, and sustainable growth through our commitment to provide quality plumbing service in an environment where our clients come first.

Our Sanitary & Plumbing Services:

- Domestic hot & cold-water system
- Sanitary waste system
- Air compressor piping system
- Acid waste and neutralization treatment system
- Water booster pump & utility system
- Boiler Steam pipeline
- Wastewater treatment plant piping
- High-pressure water jetting
- Grease trap desludging

MECHANICAL ENGINEERING

We have provided mechanical design services for the wide range of mechanical facilities across many sectors. We bring our mechanical expertise to complete all types of new and expansion of the projects. We also study and document existing systems to provide life cycle cost analysis, recommendations, and valuable insights to plant owners.

Our Mechanical Service:

- Repair, service, and install all kinds of pumps
- Mechanical seal modification and pump conversion
- Repair blowers for wastewater & sewerage water treatment application system
- Repair and service the Chiller, AHU, and FCU system
- Repair and service the Cooling Tower Mechanical system
- Repair overhaul and servicing the Air Compressor, Air Dryer System
- Overhaul and service the boilers
- Overhaul and service the vacuum system
- Installation of new equipment with commissioning
- Perform Laser Alignment for all type of couplings
- Perform On-site Balancing for blower fan
- Conditioning Base Monitoring services for rotating equipment such as Vibration analysis and Thermal analysis

Installation of Heavy Rotating Mechanical Equipments

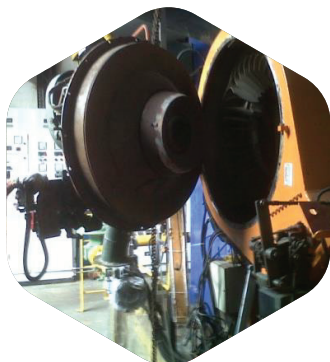

Vibration Monitoring For Installed Rotating Equipments

Perform Laser Alignment for Rotating Equipments

Perform On-Site Balancing For Rotating Equipments

Boiler Burner Overhaul

Boiler Valve & Part Overhaul

Servicing & repairing the FCU & AHU System

Repair & serving the conveyor

On-site servicing for Cooling Tower

Installation of new Cooling Tower

Overhaul the Root Blower

Installation of new pumps & valve on-site

On-site servicing sewage & treatment pumps

Repair & service all kinds of pumps

- Replace new mechanical seals
- Replace pump bearing
- Re-built worn pump parts
- Replace damaged parts

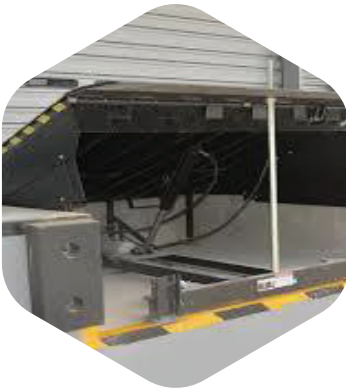

HYDRAULIC ENGINEERING

InLine Engineering Sdn. Bhd. provides hydraulic Engineering Services across several industries. We provide one stop solution to the complex hydraulic problems through the combination of problem-solving.

Our Hydraulic Services:

- Repair and Service the Hydraulic Loading Ramp
- Repair and Service the Hydraulic Cylinder
- Supply and install New Hydraulic pump & System
- Supply and install hydraulic hose
- Perform hydraulic testing
- Refurbish hydraulic cylinder and related components

FIRE FIGHTING SYSTEM

Expert in Fire Fighting System

Beyond the typical engineering design for the fire sprinkler and standpipe system, we holds expertise in the areas of protecting the building from fire hazards includes fire pump design, performance specifications, constructability review, Sprinkler system specifications, and design-build support. We also offer review and study services for the existing sprinkler system in buildings, as well as the water supply analysis and recommendations.

Our Fire Fighting Service:

- Conventional & Addressable fire system
- Sprinkler System
- Fire Alarm System
- Horse Reel System
- Dry Riser System
- Smoke Detection System
- Heat Detection System
- In Rack System
- Set up fire pump room system
- Lay and repair hydrant pipeline

FABRICATION ENGINEERING

Expertise in Fabrication Engineering

InLine Engineering Sdn. Bhd. provides fabrication services such as manufacturing of specialized engineered turning, engraving & marking solutions to the manufacturing sector. We work with some of the biggest manufacturing & engineering companies, ensuring their products are permanently to be the highest level of quality and care. We offer each client a customized solution to meet their specific requirement needs. We select the "Best Fit" solutions and perform with "Highest Quality" standards.

Our Fabrication Engineering Services:

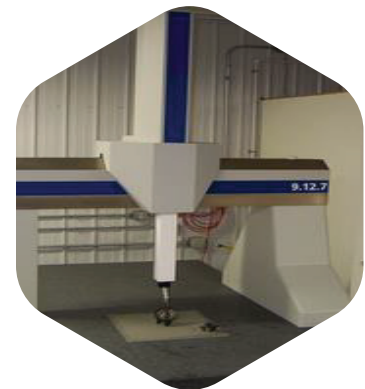

- Panel Jigs
- Fabrication parts
- Precision machining for component
- Vibration jigs
- Machined Graphite Parts for Production Usage
- CNC Milling Machine
- CNC Turning Machine
- Grinding Machine
- Milling Machine
- Profile Projector
